

CERAMIC flap discs

for stainless steel

- + Maximum stock removal on the workpiece thanks to ceramic grain

- + Top Size coating enables cool grinding, which prevents discoloration of the workpiece

- + Even surface finish thanks to the self-sharpening characteristic of the abrasive grain over the entire lifetime of the disc

Application:

- + For demanding grinding applications on different stainless steel grades

We recommend:

- + Grit size 40/60 for high stock removal
- + Grit size 80 for fine work
