

Control System – DC Tools

Fastening Control System for QE & QM Series Electric Tools

Paired with an Insight IC12D or IC12M controller and a PC computer, our groundbreaking ICS Software Suite makes it possible to more precisely control and monitor your fastening process.

ICS Connect

ICS Connect provides operators the ability to access and program basic fastening strategies as well as view cycle data with a single IC12D or IC12M controller via a one-to-one Ethernet connection. ICS Connect is supplied standard with all IC12D and IC12M controllers.

System requirements:
PC computer with
Windows 2000 or XP,
RJ45 connection,
1024 x 768 screen or above.

ICS Network

ICS Network enables programming of multiple IC12D and IC12M controllers connected through a local area network (LAN) or direct connection. This option also allows operators to program advanced fastening strategies including yield and prevailing torque control.
